C. OLD BUSINESS - Postponed from May meeting:

Counting nine credit hours of coursework between the major and more than one minor: at the last C&R meeting, it was decided to present this issue to the Chairs and Directors for input. At the last Chairs and Directors meeting, this met with approval. Is C&R prepared to grant the Dean's Office the ability to move forward with implementation of this change, or should the decision be put to the faculty at the fall faculty meeting? **UNANIMOUSLY APPROVED**
Finalized language addressing the change will be accepted and implemented by the LAS dean's office and need not be presented to the LAS faculty.

The C&R committee has approved the following language: "Students may double count up to nine credit hours between a major and a minor. Such double counting is permitted for one major and *any number of minors.*"
