7. New Degree Program Proposal – Bachelor Degree in Game Design and Development (GDD) (Tim Chamillard) **Unanimously tabled until next meeting.**
There were questions about free speech, content, number of these degrees around the country, jobs after graduation, keeping it as a minor and animation.

8. Colorado Consortium classes for residency (Welshon)
Rex asked the committee to help him interpret the last sentence of the attached Colorado Consortium handout. The committee felt it was ambiguous and left UCCS practice as it has been over the last few years, permitting UCB and UCD-HSC consortium classes to count toward residency requirements and not permitting courses from other institutions to count toward residency requirements.
