- PSY 443 - Seminar in Social Issues
- PSY 462 - Seminar in Developmental Psychology

Revised Courses

Recommended approval of the requested changes in course titles, course descriptions, course numbers and course credits from the Biology and Psychology departments. (see attached)

AREA REQUIREMENTS REVIEW

The committee discussed the best approach for considering area requirement course proposals as a whole. For comparison purposes, GES course proposals were reviewed by the entire committee. All courses proposed by GES to meet area requirements were unanimously accepted by committee members. With ANTH and GES courses now processed, a review process has been established for considering the remainder of course proposals. This will be completed during late November. Not all departments have submitted their course proposals for area requirements courses. A reminder will be sent to department chairs.

 Dean's Approval

NEXT C & R MEETING WILL BE HELD ON TUESDAY, NOVEMBER 8, 1994.
