2. WMST 504 - Seminar: Sociology of Gender and Gender Roles Submitted to the committee for information only.

D. MEETING WITH DEAN NULL

A considerable amount of time was spent listening to and discussing the Dean's proposal of criteria by which courses submitted for the area requirements lists should be evaluated prior to recommendation for approval or disapproval. The criteria are based on the College goals and the recommendation was that each course meet a specified number of the criteria. It was also recommended that, if adopted, each department would resubmit all courses currently on the lists to show that they meet the criteria.

The Dean emphasized that the responsibility of the committee is to evaluate courses in terms of specified criteria regardless of FTE concerns and/or professor credentials.

With the addition of "Breadth of Discipline" to the criteria, the members of the committee voted to support this plan when it is presented to the faculty.

E. GENERAL INFORMATION:

Notices of committee recommendations were sent to Rapheal Sassower and Alex Soifer.
