Graduate School of Public Affairs

SUBJECT: Certificate Program in Public Administration

DATE: October 12, 1976

The certificate program was developed by the Graduate School of Public Affairs and approved by the Board of Regents several years ago. The program is supervised by the Graduate School of Public Affairs and courses are offered through the division of Continuing Education.

A collaborative effort (on the part of sociology, psychology, and political science) is in process to more closely meet the needs of our community's professionals in law enforcement. It is our intent to offer a curriculum which reflects and is responsive to the undergraduate needs of professionals in criminal justice. The certificate program is an integral part of this new program. We would like to propose that the eight courses of the certificate program be considered equivalents to those in the various disciplines in the College of Letters, Arts, and Sciences. In addition, it is requested that the 24 semester hours of the certificate program be counted toward the B.A. degree and that they might be applied toward the primary area (and/or electives) of the distributed studies major.
